10:00	<p>Detailed specifications: How to transport the machines when it is complete. General specifications: How to make the Penny press machine and how much it will cost.</p> <p>Work line B: Mechanics Challenge with different coins and sizes. How will the machine be powered and how much force do we need to press down the coins? If it is possible to make the logos on the both sides at the same time?</p>
12:00	<p>Plenum Speak from different groups about the penny press machine. We have different types of coins, and Norway have the biggest one (10,-) and need to do a change with the coin separation's for our machine or make Poletti\tokens(?) Logo inspiration.</p>
13:00	Meal
14:00	<p>New group projects with media, finding out how to represent the project and what we should have with it. How we came out with different ideas. Each group have different topics.</p>
16:30 17:00	<p>Plenum Voting for the PPM4EU logo, the one from 3M4EU wasn't the right one for us. They wanted to make their own logos for this. Presentation: We all had the same thoughts. About the pictures, funny moments and how we were going to represent this for the schools. A lot of good ideas and thoughts. Permissions from parents for pictures, if under aged. Students thought it was hard to communicate with each other when they were working with the same topic of the project.</p>
