<p>Content of our review We discussed about the homework from our meeting in Luxembourg. Then we had a look at the first technical drawings and parts which were made. Afterwards we talked about the method how we want to put the engravings on the press roll and the construction itself. Simultaneously we had a look at the pros and contras of the methods and the construction.</p> <ul style="list-style-type: none"> • erode: +cheap / - we need to make seven tools for all motives • laser: + fast, very precisely / - expensive <p>Further steps Find a method to control the position of the engraving roll. So that we are able to engrave the logo we want.</p>
