	[LU] Lynn Kler
	[ES] Alex Almirall

Minute written by	[AT] David Volpe

Description of work progress: Topics / Tasks / Results / Decisions / Facts of importance	Responsible school(s) or person(s) incl. deadlines
<p>First, we discussed the target of this workgroup, as we did not have this in the meeting in Luxembourg. We were not really sure about that and asked Martin Kress about.</p> <p>After we knew what we aim for, we discussed how we could collect all the data. Another question was where we could save all that data. As we speak of data, we mean technical drawings, hand drawings, 3D-models, calculations and so on.</p> <p>We came to the conclusion that we need to save these things on a folder on google drive.</p> <p>Furthermore, we decided that we cannot collect everything by ourselves and wanted to inform everyone that they should send their drafts to us.</p>
