	[LU] Lynn Kler
	[ES] Alex Almirall

Minute written by	[AT] David Volpe

Description of work progress: Topics / Tasks / Results / Decisions / Facts of importance	Responsible school(s) or person(s) incl. deadlines
<p>As we started with all the presentations, eventually it was our turn to present what we have done as a group the day before.</p> <p>David Volpe, as the referee, talked about the goal of this workgroup and what we had to do, to reach that goal.</p> <p>Main goal: After we finished this project, every country/school should have every sketch/drawing/calculation to rebuild their own machine</p> <p>What to do: To achieve this, we need to collect all these things and save them somewhere. Unfortunately, the workgroup cannot collect everything by themselves, that is why we need everyone to send their sketches,... to us or directly on our google drive server.</p> <p>These ideas were overall accepted, and we did not discuss it much.</p>
