<p>In this workgroup session, we thought about an excel chart of the bought products, a “price list”. Given that we already have many products which we ordered, a price list would only make sense.</p> <p>We also started with collecting every sketch and 3D-model we had at that time. Unfortunately, the google drive server was not finished at that time, so we saved them temporarily on an USB-Stick.</p> <p>Although we had some new ideas, we did not think that a PowerPoint would be necessary.</p>
