Description of work progress: Topics / Tasks / Results / Decisions / Facts of importance	Responsible school(s) or person(s) incl. deadlines
<p>We have hand drawn some concept art about the look of the machine, based in what we know until this moment:</p> <ul style="list-style-type: none"> - It has to be possible to send the two parts of the machine (lower and upper part) each one within one DHL standard box. - In the upper part there are the gears that crush the coin, and the coin unit. - In the lower part there are the display to operate the machine, the electronics, and the motor that moves all - It has to be possible to see how the machine crushes the coin. <p>We have inspired ourselves with the look of the machines we have found around the web. We should share this info with the other groups</p>
