Minute written by	[NO] Weyni Itel
--------------------------	-----------------

Description of work progress: Topics / Tasks / Results / Decisions / Facts of importance	Responsible school(s) or person(s) incl. deadlines
<p>11:30 – 13:00 Work line B - Mechanics</p> <p>We were 4 persons and the discussion were about what we decided and about the next steps, and which part of information do we need for the following step, from where we can get the information we need.</p> <p>It was summary for the whole week and we agreed with each other to find a solution for the things we didn't have answer at the time for e.g. no one has a lot of information about the electronic system how we will connect to the penny press machine so that was our first homework to find the solution and we agreed a WhatsApp group to have the communication between us. In the last meeting we will have a solution for every question that we didn't answered in our first meeting.</p>
